

Church Planting & Development

your opportunity
to partner with national leaders
and ministries

Cameroon Ministry Need: \$13,480

Funding the **Cameroon Church Planting & Development (CPD)** will help resource the following people and strategic initiatives:

- ♦ production of materials for pastors who are being trained as pastors and church planters
- ♦ transportation and upkeep costs for pastors during training sessions
- ♦ evangelism outreach costs
- ♦ costs for Pastor Wilson, national leader, as he travels to churches to train and organize outreach

The Free Methodist Church in Cameroon

Origins

Free Methodist work in Cameroon was started just before 1990 through an affiliation of several churches in the southwest part of the country. FMC-USA has partnered through the years with the Cameroon church in pastoral training, outreach to children, women's ministries and some vocational training.

Present Ministries

Free Methodists in Cameroon are enlarging their work by starting new fellowships in Douala and expanding to new cities and regions. Some of their newest outreach points are in Douala. The Rev. Wilson Esambe and his leaders are eager to minister as widely as possible throughout the country. Presently, there is a vast campaign of evangelism and church planting going on around Douala. The FMC Cameroon started a Bible-training program with the objective of training local leaders to become church planters and ministers of the gospel. Those who complete the training will be sent to different regions of the country to start up Free Methodist Churches.

Pray for:

- present conflicts in the Anglophone region of North West and South West
- a vision for expansion, increasing FM work in Douala and all of Cameroon
- training of church leaders and training materials
- God to raise more laborers to expand the work
- purchase of church headquarters property
