Church Planting & Development

your opportunity
to partner with national leaders and ministries

Guinea Conakry

Guinea Conakry Ministry Need: $17,850

Funding the **Guinea Church Planting & Development (CPD)** will help resource the following strategic initiatives:

- expenses for the office from which Pastor Belley gives leadership to the church plants, new leaders and to his own congregation
- materials for new leaders to be trained in church planting and pastoral ministry
- training seminar expenses - food and transportation
- evangelism expenses including event costs and materials for outreach

Guinea Conakry

The Free Methodist Church in Guinea Conakry

Origins
In September 2012, Africa Area Director Mike Reynen and FM Togo leader Rev. Dosseh met with Belley Messa, a Congolese Free Methodist. Belley had been ministering in Guinea-Conakry for several years, winning people to Christ. Plans were put in place at that time to partner with Belley and his friends to organize new converts into Free Methodist churches and to guide those churches in continued evangelism.

Present Ministries
Missionary Belley Messa completed his assignment, and now Dr. Gabriel Lamah is leading this work. The church is expanding with additional fellowships in the capital, Conakry, and the interior Forest Region.

Pray for:
- Gabriel's periodic visits to the Forest Region
- the further development of a medical center called Cellule Médicale le Moissonneur en Christ (CMMC) in N'zérékoré
- the opening of a new church in Coyah and food pantry ministry there
- Gabriel's continued preparation for ordination in 2023

National Leader
Dr. Gabriel Lamah

Guinea Conakry
Church-in-Formation
- Population: 13,422,000
