The Free Methodist Church in Mali

Origins

Christian workers from another West African country began working as Free Methodist church planters in Mali in 2017.

Present Ministries

Work is underway in one location where a fellowship started. As this is an area of almost all Muslims, if one becomes interested in knowing more about Christ, a safe place has been established where more learning can occur.

Pray for:

- our pastor coordinating the safe place for learning and discipleship
- people who have been spiritually awakened to gain more knowledge of Christ and give their lives to Him; then pray they will become witnesses for Christ
- the new fellowship in Farabanah
- the local leaders to gain knowledge and have passion for effective church planting
