

Passed On

by Vesco Pimpas with Al Mellinger, Bulgaria

Vesco Pimpas, a young leader Al and Diane Mellinger have worked with over the last few years, writes of the impact a Love Bulgaria youth conference had on his life.

Love Bulgaria was unforgettable. Attending the conference filled me with boldness, confidence and fire from the Lord to praise His name. The music workshop I attended gave me help at that time and later in ministry. When I went back to the church I serve, we sang the songs I had learned. The people were moved, cheered and lifted – the presence of God was felt by all!

The week spent at Love Bulgaria was a time to forget about life in the world. The constancy and intensity of small groups and workshops changed us very quickly and filled us with great power. It was easy to relax and open our hearts in the presence of God, allowing Him to do what was necessary to change us.

I believe many people were encouraged and changed. New Christians were strengthened, encouraged, lifted up and touched. From waking up to going to bed, everything had to do with God ... everyone spoke of God ... sang to God ... prayed to God!

Going back to Kyustendil, I and those who went with me developed a feeling of confidence and a willingness to talk to people about Jesus Christ. We became so accustomed to talking constantly about God with our new brothers and sisters at the conference that we could share Christ with strangers without worrying or feeling ashamed.

I thank God for Love Bulgaria and for all who organized it. Be blessed where God leads you and uses you!

God is moving and touching lives in Bulgaria through our work. To those who are partners with us through prayer and finances – you helped make this happen so that Vesco's life was changed! He now impacts others, and so the message is passed on.
