

Those with the Least

by Don and Kathy Williams, Thailand

The mother of two is from one of Thailand's hill tribes. The poorest of the poor and marginalized by Thai society, the people of the hill tribes have been oppressed for centuries.

Her husband was duped by his employer into transporting illegal teak lumber and then was left holding the merchandise in a raid. Sadly he was the one to take the rap and is serving an 18-month prison sentence. The mother has no means to earn a living. She has no one else to turn to but God and the members of the Chiang Mai Free Methodist Church. The church people are not only her spiritual family, but they are also ministering to her and her children's physical needs.

Many church members are hill tribe people who identify personally with what the woman and her children are going through. The Chiang Mai FMC is embracing all with compassion, transforming lives within their community. It's truly convicting to see those with the least, doing the most to embrace all.
