

Provided for **FREE METHODIST CHURCH N.A. – ID Number: 107438**

Provisions have been made for comprehensive travel assistance while traveling and serving overseas, by simply calling the Specialty Assist™ telephone numbers provided below.

MEDICAL ASSISTANCE

Specialty Assist™ can help the travelers get medical attention when someone suddenly becomes ill or is in an accident by:

- locating medical facilities, including physicians, hospitals, or dentists
- verifying insurance coverage
- making arrangements with providers of medical care to avoid cash deposit, where possible, prior to obtaining treatment
- communicating with family members, personal physicians, and employers back home on the patient's condition
- assisting family or friends who are traveling with the patient

EMERGENCY MEDICAL EVACUATION

Emergency Medical Evacuation will arrange proper medical care available from anywhere:

Medical Advisers are always on hand to consult with attending physicians to make sure patients are receiving the correct medical care. But, sometimes more sophisticated treatment is warranted - treatment which may require evacuation to better medical facilities.

If deemed medically necessary by Specialty Assist™, arrangements will be made for land and air transportation, including passage on either a commercial or chartered air ambulance, with in-flight physicians, paramedics or nurses and in-flight equipment and supplies. All family arrangements and immigration and customs details will also be handled.

Approved travel expenses associated with medical evacuation will be covered up to \$100,000 under this program.

FAMILY COORDINATION & REPATRIATION OF MORTAL REMAINS

In addition to the limit of Emergency Medical Evacuation above, an additional limit of \$25,000 is provided. This can be used for:

Certain expenses of coordinating the travel of family members traveling with an insured person needing evacuation.

Expenses for repatriation of the remains of a deceased person, when arrangements are made by Specialty Assist. Certain expenses of coordinating the travel of family members during this repatriation are also covered. (Note some countries forbid the shipping of the deceased remains).

LEGAL ASSISTANCE

Legal Assistance provides a ready resource for travelers helping to find English-speaking attorneys for persons in danger of being arrested as the result of any non-criminal action, or needing to replace lost or stolen documents, such as passports, or personal items, such as luggage.

ACCIDENTAL DEATH & DISMEMBERMENT

A benefit may be afforded in the event of Accidental Death. Contact your group for details.

Either after, or while contacting your group, also contact Specialty Assist™. TO USE THIS SERVICE, IDENTIFY THAT YOU ARE UNDER ID No. 107438. Following are the telephone numbers to use for medical, legal and other assistance services:
