## The Free Methodist Church in Guinea Conakry

### Origins

In September 2012, Africa Area Director Mike Reynen and FM Togo leader Rev. Dosseh met with Belley Messa, a Congolese Free Methodist. Belley had been ministering in Guinea-Conakry for several years, winning people to Christ. Plans were put in place at that time to partner with Belley and his friends to organize new converts into Free Methodist churches and to guide those churches in continued evangelism.

### Present Ministries

Following the September meeting, a Free Methodist fellowship was started which now averages nearly 60 people in attendance for Sunday morning worship. Today the work is comprised of four churches and several small fellowships, with a plan for multiplication.
