

We are pleased to announce that the updated latinamericaarea.com website that we've been telling you about is now online! The website team consisting of Dra. Delia Nüesch-Olver, Dr. Paul Olver, Becky Crouse (Ecuador), Andrea Green (Uruguay) and me...along with our website designer, Sebastian Ramirez from Medellín...attempts to focus on the ministries of local leaders as they strive toward the regional goal to fuel and sustain a biblical movement to reach Latin Americans for Christ through empowering local leaders, building partnerships and promoting sustainable growth of the church.

Feel free to visit the website today and then return every two weeks for fresh new stories or media that demonstrate how God is at work in Latin America and through Latin American leaders. Of course, if these testimonies inspire you to support the ministries of Latin America, there are links on each mission district's page to give on-line.

In the words of Jeanne Munos, a beloved former Latin American missionary...
for His Kingdom to come in Latin America and around the world,
Beth
