

Teams-MIA Tribe-Knee Replacement

In This Issue...

Just a quick note from this week, the Refugee Challenge team came to Thessaloniki Anagenesis and had a great time engaging with our friends from Syria and other countries. They put on a workshop for job and business training. Around 18 showed up. Plus the MIA Tribe launched officially their operation as a Social beneficial Coop making ethical products for the cause of displaced and unfairly treated people. Monday morning on Oct 2, I-Mike am scheduled for a knee replacement of a worn out right knee. We are counting the Lord God our Healer for a successful and complication free operation. Thank you for your prayers and support
