Pray for:

- A continued revival among illegal brewers in Kenya; ELI has been able to reach and retrain them giving new skills; over 900 of these women have come to Christ during the one-week ELI training; villages are being transformed as a result
- New ELI businesses underway; Aquaponics, vetiver grass, vertical gardens, steel-drum bread ovens, bio-intensive gardening, vermiculture, and agribusiness farms
- Joshua as he begins his first year of college at CBU (fall 2018) and Nathaniel who is a sophomore in high school
- Continued strategies to empower lives by integrating Biblical teaching with dynamic ideas and skills that help the poor address the challenges oppressing their lives spiritually, physically, and economically
