Palestine

The Free Methodist Church in Palestine

Present Ministries

Free Methodist work is in the Galilee region, specifically the city of Nazareth, Jesus' boyhood home. Led by Dr. Nabil, an Asbury Seminary graduate, the work encompasses church planters serving 23 house fellowships and more than 600 people. More house churches will be launched soon. In addition, leaders have established house-church networks in the Bethlehem area. Some 1.6 million Arabs reside in Israel and represent the target population for FM church planting efforts.

Palestine
