2021 Annual Report

The Free Methodist Church in Latin America participates with God in the restoration of Latin America by **developing healthy leaders, multiplying committed disciples and empowering transformational churches.**

When we look at the 2021 statistics, we see that God is restoring Latin America. Each number we report represents individuals who have been or are being transformed by the Gospel. Each person is one example of God's restorative work in our region!

Thank you!!

Together we are one because of God's transformative and restorative work in Latin America and around the world through the Free Methodist Church. Thank you for being one with these beautiful people in your prayers, financial support, and partnership for the cause of Christ in Latin America.
