## The Free Methodist Church in Albania

### Present Ministries

Free Methodist Work in Albania has begun under the leadership of Algent and Erjona Bregu. They have been appointed as community engagement coordinators. Algent works full time as a barber and engages his community through cycling, fishing and camping ministries. Erjona is a certified primary teacher. They desire to establish a learning center in Korçë ministering to children from needy families through education and social programs. Their passion is to help develop and nurture healthy children and families to know Jesus and live productive lives within their community.

### Pray for:

- open doors as Algent and Erjona reach their community
- financial resources to establish the learning center
- the witness of the Bregu family as they share Christ and nurture other families
