The Free Methodist Church in France

Present Ministries

The church in Cergy (just outside Paris) is primarily composed of Haitian immigrants; many were members of the FMC in Haiti before coming to France. People of the church desire to find more ways to effectively witness in their community, reaching more Haitian and African immigrants in the area. Pastor Joel Loudior, a conference ministerial candidate, leads this congregation.

Pray for:

- growth and development of new leaders
- the local church to reach out to other immigrants in the area
- spiritual development and growth for the church's many children and youth
- Pastor Joel Loudior's continued studies as a conference ministerial candidate while he also holds down a full-time job
