SANTA CRUZ,
BOLIVIA.

Staff Retreat

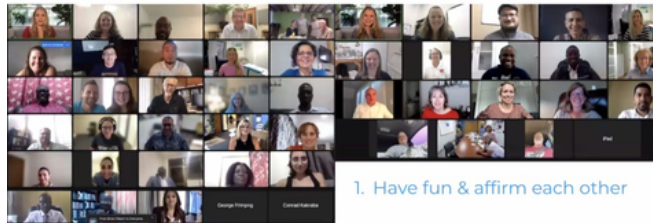

We have put together an incredible staff that will support us as we start our journey as international missionaries, they will be behind scenes planning and programming tasks and logistics!

We had our Staff Retreat in Hermosillo, Sonora in which we not only bonded as a team through different activities, but developed a clear and concise work plan for the months ahead.

We are grateful that God has blessed us with such an amazing team, filled with servants that are ready to put their gifts and time into this project to build the Kingdom of God together!

INNOVATE TRAINING WITH CHALMERS' TEAM

innovate culture

Innovate is a program meant to aid and motivate church teams to develop community service initiatives while being mindful of their context and environment.

General Conference at Rancho Betania

September 23-24

We attended the General Conference where Pastor Juan Carlos was a ministry representative.

Pastor Héctor Pérez from Mexico City was elected as the new Bishop for the Mexican Conference.

We had the opportunity to meet with several pastors and present our project as international missionaries.

Lastly, the Latin America team met to create a work plan for the Mentorship Program that Pastor Juan Carlos will be developing.

WE MADE IT TO SANTA CRUZ, BOLIVIA!

September 28th

On September 28th, we started a journey that started in Hermosillo, Mexico and ended in Santa Cruz, Bolivia!

Neither of us had been in such a challenging itinerary, full of connection flights among different countries and airports. But we firmly believe that God and your prayers were always protecting us. Everything went as planned and we arrived to Bolivia just in time to see the sunrise! We were quite tired, but our hearts were so full.

As we settle in, we reflect on what a task God has given us when He sent us here. He called us, we answered (Isaiah 6:8).

We are so excited to partner with you for what is to come!
