PLANNING

In the last two weeks we had the privilege of working together with Daniela Da Cunha on the "Multiplication Strategies" that we will be implementing in the countries we work together.

MENTORING TRAINING

From July to December 2022 we gave a training "The Five Characteristics of Effective Mentoring" in 15 countries, which was quite an accomplishment. The very effective and excellent training team of this track is shown in this image. We are now working on the next training to form new mentors.
