

# Missionary Report

## Jan-June 26 Report

### Leaders' Summit

We began the year at the leaders' summit in Colombia, where we shared lessons learned, planned, and organized the next steps as the Lord leads us to fulfill His will in Latin America, evaluating and celebrating all that we have accomplished, united as one team.

### Election of Officials

At the Paraguay session, I had the privilege of being elected superintendent. Undoubtedly, a great challenge ahead of me, but I trust that the Lord will give me the wisdom and grace to fulfill this new role.

### Paraguay's Annual Session

We began our 61st annual session on February 27, alongside leaders and pastors from every region of the country. Under the theme "Toward God's Newness," we prayed and trusted that the Lord would make all things new and bring transformation to every community in Paraguay.

At the annual meeting, we celebrated our successes and honored the life of Pastor Beatriz Villalba as she took another step of faith toward her ordination as a presbyter.

## Summit on Empowering Holistic Formation

In May, the “Catalizador” Summit was held in Colombia, bringing together 40 leaders from across Latin America and the United States to share lessons, experiences, and best practices regarding holistic mission, as well as to spend time connecting with one another to build community.

## Planning Meeting

A three-day meeting led by Superintendent Juan Carlos Rodríguez took place, with all the pastors and leaders in attendance. It was a special time of prayer, reflection, and discernment, as we sought together to listen and recognize the new things God wants to do in Paraguay.

It was also an opportunity to listen to all voices, share perspectives, and, as a team, discern together the path that God is charting for the future of the church.

# Inspiring

## STORIES

### MANO SOLIDARIA: SOWING FAITH, HOPE, AND OPPORTUNITIES

At the local church “Encuentro con Dios,” located in Emboscada, Paraguay, we serve 40 children and teenagers, while at our branch locations in the San Agustín and La Aparecida neighborhoods, we serve approximately 60 and 70 participants, respectively, through the three Mano Solidaria soup kitchens.

Our goal is to share the gospel in a holistic way. That is why, in addition to Bible teaching, we incorporate songs, dance routines, group activities, reading activities, soccer lessons, writing, and painting—all of which also reinforce their academic learning.

We are sowing the Word of God with love by opening two houses of peace, to shape lives and pave the way for people to come to know and actively participate in the Kingdom of God.

### OUR THANKS

Finally, we are deeply grateful for your loyalty, your trust, and every contribution you have made. We pray that the Lord will bless you abundantly, keep you safe, and reward your generosity according to His promises. With gratitude,

*Misioneros Juan Carlos and  
Yaneth Rodriguez*
